

# How to Set Up Voice Module

Order of Commands:

LEFT

RIGHT

IN

OUT

CENTER

Speak Clearly into the Microphone

**START**= say the command

**AGAIN**= wait- instructing to say the same command at the upcoming start

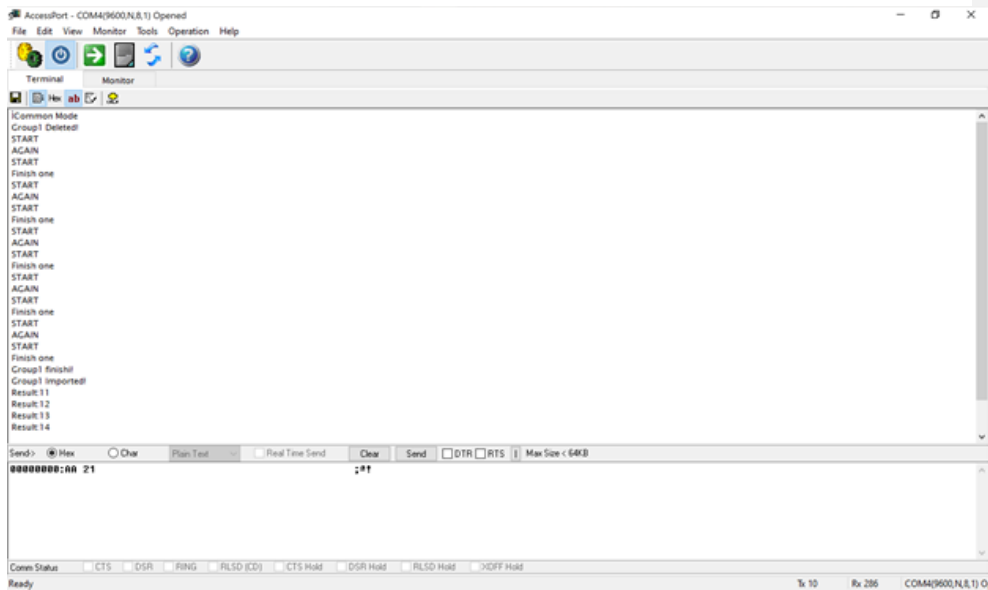

**FINISH ONE**= That command is completed and the next command

**NO VOICE**= did not pick up your command, it will go through the process again

**DIFFERENT**= Picked up a different word than the first start

**GROUP# FINISHED!** = The commands have successfully been saved

A Successful Run looks like:

To Verify Commands, Say each command

With each command

Result: 11

Result: 12

Result: 13

Result: 14

Result: 15

Represents the  
Command  
Number

**RESULT: 14**

Represents the Group Number

**Commented [MR1]:** This is wonky because it cant upload on this platform ok
